

# BANK TRANSACTION COPY PASTE

\$2,250\*

## Bank Transaction Copy Paste

for Microsoft Dynamics® GP

The Bank Transaction Copy Paste application is a tool that enables users to quickly import data from an Excel spreadsheet and create Bank Transactions from the data within Microsoft Dynamics GP.

### Benefits:

- Excel format independent allowing you to map the specific column data
- Windows is lookup enabled, allowing the user to change account numbers using the core GP account number lookup window
- Fully integrated with Dynamics GP Core lookup windows
- Ability to post the bank transactions to a specific batch or to the default "next batch number"
