

The Resource Group

The Resource Group is a seasoned team of business professionals that helps companies gain valuable business insight from their financial systems, enabling customers to manage their business more efficiently and effectively.

Our team is comprised of a group of confident, well-educated individuals who are passionate about delivering the best possible business solution for each company.

"The Intacct system was able to deliver on our main requirements including simplified workflows, robust reporting and be implemented with minimal impact on our IT resources. Also our management team has found the system to be intuitive and simple to use. We're very happy with our selection and feel the system will be able to grow and adapt with our changing business needs."

Alex Gross, CFO
SCCA, Seattle Proton Therapy

Experts at tailoring solutions to solve business problems

- Passionate about solving business problems with technology
- Vision to take your company beyond the basics

Business partner helping you achieve your strategic goals

- Long-term relationship approach
- Partner with our customers as a trusted advisor
- Look to continually improve the solution

Small enough to care, big enough to get results

- Real people who care about our clients
- Deliver on what we say
- A staff that knows their business

The Partner Makes All The Difference

Selecting the right partner for your business software implementation is crucial. It could truly mean the difference between a failed or successful transition. The Resource Group is dedicated to a unique customer service philosophy.

When you first engage with our organization to evaluate an ERP solution, you are getting a partner who is mutually interested in your organization's long-term success. By spending time initially to evaluate your unique business needs, we are able to recommend the best possible solution for your highest return on investment.

Once you have chosen to work with The Resource Group, we are engaged with you throughout the life cycle of your business software solution.

"The Resource Group has been outstanding for us. Prior to our relationship, our company was utilizing Dynamics GP with no real direction and The Resource Group has brought us a well thought out, logical path for our growth."

**Bill Lalor, Director of IT
Taylor Shellfish Farms**
