Seattle Proton Therapy Intacct Client Profile

Customer:

Seattle Proton Therapy
www.seattlecca.org
Seattle, WA

Industry:

Healthcare

Solution Selected:

Intacct Cloud Financial
Software

"The (Intacct) system was able to deliver on our main requirements including simplified workflows, robust reporting and be implemented with minimal impact on our IT resources. Also our management team has found the system to be intuitive and simple to use. We're very happy with our selection and feel the system will be able to grow and adapt with our changing business needs."

Alex Gross, CFO
SCCA,
Seattle Proton Therapy

Seattle Proton Therapy provides an advanced form of radiation treatment, proton therapy, which can be calibrated with great precision to selectively kill cancer cells. This company was formed as a new organization from another company that was running on PeopleSoft for their financial software. When The Resource Group first engaged with Seattle Proton Therapy, they were an entirely new business consisting of multiple legal entities, had a new accounting team, no established processes, but a vision and mission to start operating. Seattle Proton Therapy had three months to move off the PeopleSoft solution. A daunting task, to say the least.

Why Seattle Proton Therapy Chose Intacct?

Seattle Proton Therapy chose Intacct cloud financial software because of the following:

- Ability to use dimensional chart of accounts
- Robust reporting and dashboards
- Built-in expense reporting
- Elegant user interface

In three short months they brought on additional accounting team members, created new processes, and implemented Intacct cloud financials as their new ERP system.
